Education

Bachelor of Computer Applications (B.C.A.)
LNCT University, Bhopal

📅 2021–2024

📍 Bhopal, Madhya Pradesh, India

Skills

- **Programming Languages:** TypeScript, JavaScript, Python, Golang
- **Frameworks & Libraries:** Next.js, React, Express, Socket.IO, Tailwind CSS, WebRTC, Prisma, Drizzle
- **Databases:** MongoDB, PostgreSQL, MySQL, Redis
- **Tools & Platforms:** Git, Docker, Linux, Turborepo, Vercel, CI/CD, Github Actions

Projects

Chai-lang *Golang, WebAssembly, React, Tailwind CSS, Typescript* [Github] **[In Progress]**

📅 2025

- Architected and developed a toy programming language from scratch in Go, emphasizing simplicity and ease of use.
- Engineered the compiler to target multiple platforms and WebAssembly, demonstrating expertise in low-level compilation and cross-platform compatibility.
- Integrated a React and Tailwind CSS-based frontend to provide an intuitive user interface for code editing and execution.
- Successfully enabled client-side code execution in browsers through WebAssembly, showcasing innovative application of web technologies.

Social Connect *Next.js, Express.js, Socket.IO, Drizzle, Cloudinary, Tailwind CSS, Typescript* [Github] **[In Progress]**

📅 2025

- Designed and implemented a full-stack social media platform with real-time features, facilitating dynamic user interaction and engagement.
- Developed a super-responsive UI with Next.js and Tailwind CSS, incorporating optimistic UI updates for a seamless and instantaneous user experience.
- Leveraged Socket.IO to enable real-time messaging, notifications, and live content updates, enhancing user connectivity.
- Built a scalable and maintainable monorepo architecture, ensuring efficient package reuse across frontend and backend services.
- Ensured robust type safety and improved code quality by fully typing both frontend and backend with TypeScript.
- Integrated Cloudinary for efficient media management, handling image and video uploads seamlessly.

Casify *Next.js, Express.js, Monorepo, Prisma, Stripe, Resend, Cloudinary, Typescript* [Github]

📅 2024

- A full stack e-commerce platform for phone cases.
- Users can upload images, customize cases, and order them.
- Built with Next.js, Express.js, Prisma ORM, Stripe for payments, and Resend for email notifications.

Code Compiler *Next.js, Express.js, Redis, Prisma, Docker, CodeMirror, Typescript* [Github]

📅 2025

- A full-stack online code editor and compiler supporting Python, JavaScript, C, and Java.
- Real-time execution in a sandboxed Docker environment with low-latency performance.
- Editor features include syntax highlighting and Vim mode.
- Backend built with Express, Redis for caching, Prisma ORM, and Docker workers.

Creator – Seekh Code (<https://youtube.com/@seekhcode>) [Website]

- Write and record tutorials on software development, backend architecture, and systems design.
- Over 20+ blog articles covering topics like infinite scrolling, session handling, etc.
